

DEERWOOD BANK

How to Set Up and Use Google Pay

Google Pay makes it even easier to make purchases with your Deerwood Bank Debit Mastercard®.

Compatible Devices

Most Google phones manufactured in the past 2-3 years can be used with Android Pay.

One-Time Setup

1. Look for the Google Pay app on your phone. If you don't find it, download it from the Google Play Store.
2. Open the Google Pay app
3. To add your card, click on the plus sign in the lower right corner
4. Use your phone's camera to scan your debit card. (You can also enter the card information manually).
5. Enter the three-digit security code on the back of your card
6. If you are asked to call the bank to verify your card, please call 866-205-9449 (SHAZAM 24hr) or Deerwood Bank 218-825-8946
7. If your phone asks you to turn on NFC, please do so. This is how the phone communicates with terminals. (You may be asked to set up a password for security reasons. This is a requirement from Android Pay.

SHAZAM Bolt\$ users

If you are enrolled in our SHAZAM Bolt\$ Fraud Watch program, you will receive an additional notification to verify your card. If you are asked to call the bank to verify your card, please call 866-205-9449 (SHAZAM 24hr).

Using Android Pay

1. Look for terminals with the mobile wallet symbol. (Visit the Google website for a list of stores that accept Google Pay.)
2. Unlock your smartphone
3. Hold the back of your phone over the symbols on the terminal
