

DEERWOOD
EST. **BANK** 1910

How to Set Up and Use Android Pay

Android Pay™ makes it even easier to make purchases with your Deerwood Bank Debit Mastercard®.

Compatible Smartphones

Most Android phones manufactured in the past 2-3 years can be used with Android Pay.

One-Time Setup

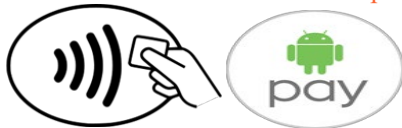

1. Look for the Android Pay app on your phone. If you don't find it, **download** it from the Google Play Store.
2. Open the Android Pay app.
3. To add your card, click on the plus sign in the lower right corner.
4. Use your phone's camera to scan your debit card. (You can also enter the card information manually).
5. Enter the three-digit security code on the back of your card.
6. If you are asked to call the bank to activate your card, please call 866-205-9449 (24hr) or Deerwood Bank 218-825-8946.
7. If your phone asks you to turn on NFC, please do so. This is how the phone communicates with terminals. (You may be asked to set up a password for security reasons. This is a requirement from Android Pay).

Shazam Brella Users

If you are enrolled in our Shazam Brella Fraud Watch program, you will receive an additional notification to verify your card. If you are asked to call the bank to activate your card, please call 866-508-2693 (24hr).

Using Android Pay

1. Look for terminals with the mobile wallet symbol. (Visit the Android website for a list of **stores that accept Android Pay.**)

2. Unlock your smartphone.
3. Hold the back of your phone over the symbols on the terminal.

Getting Help

- Visit the **Android Pay website** @ <https://www.android.com/pay/>
- Stop by your **nearest Deerwood Bank location.**
- Call us at 218-825-8946
